

PART 139 SAFETY MANAGEMENT SYSTEM (SMS)

FAA Part 139 SMS Rule

The FAA Part 139 SMS SNPRM is published and regulation is expected within 2 years. JDA Associates are **internationally recognized SMS experts** who can align your SMS with the FAA Part 139 oversight program.

Why Use JDA?

JDA is a **MITRE licensed SMS training and implementation organization**. We deliver turn-key comprehensive SMS solutions.

Real World Part 139 Experience

JDA Associates have real world experience operating commercial airports and air traffic operations providing unique insight to delivering effective SMS solutions.

Global SMS Experience

- JDA has provided SMS development and implementation guidance to civil aviation authorities throughout the world.
- 9 Module FAA/ICAO SMS Development and Implementation Course Delivered to 40 airports in US and China.

Gap Analysis

- Conduct Inventory of Part 139 procedures and review FAA safety incidents, accidents and runway incursion databases.
- Complete gap analysis per FAA SNPRM and ACRP Report 1 Volume 2 guidance.
- Assess current Part 139 technology and identify options to integrate SMS reporting.
- Prepare Gap Analysis Report

Senior Management Coaching

- Conduct safety culture analysis to assess current safety culture.
- Provide Accountable Executive coaching to understand roles, responsibilities, and support requirements.

Implementation Plan

- Prepare SMS Implementation plan based on results of Gap Analysis and parallel integration of airport's preferred SMS reporting option.
- Facilitate SMS implementation to ensure complete system design, training, and integration.

Design

- Develop customized SMS scaled to size of your organization.
- Use Part 139 components as building blocks for most efficient, cost effective and compliant program.
- Write SMS manual and procedures.
- Offer Virtual Safety Office staff support for smaller organizations.

Training

- Develop airport SMS training tailored to airport's specific needs.
- Deliver initial training to employees with specific role in implementing and administering SMS.
- Develop training material for employees with airside access to identify and report hazards.
- Train the trainer for recurrent training.

JDA is ready to assist your airport.
